Stacy Parobek, District Director, Office of Congressman Mark Amodei

Ashley Jonkey, State Director, Office of Senator Dean Heller

Gillian Block, Regional Representative, Office of Senator Catherine Cortez Masto

Dear Colleagues:

I wanted to make you aware of an upcoming Carson River Watershed Management Forum and Bus Tour (see attached message below) that is being hosted by the Carson Water Subconservancy District and which U.S. EPA will be participating in. My Superfund Division colleague, Andy Bain, has asked me to share this information with you and to invite you to participate in both the tour on Tuesday, February 21, 2017 and the Forum on Wednesday and Thursday, February 22 – 23, 2017. Due to space limitations on the bus tour, they are able to accommodate only one person from each of your offices if they are able to participate.

➤ **Please note that if you or someone else from your office is interested in participating in the bus tour, they do not need to register online as stated below in the attached message, but rather RSVP to let me know no later than Wednesday, February 15th and my colleague Andy Bain will alert his colleagues and secure a spot on the bus for them.**

In addition, anyone from your offices is welcome to attend the Carson River Watershed Management Forum on Wednesday and Thursday, February 22 – 23, 2017 which will be held at the Carson City Community Center Theater, located at 851 East William Street Carson City, NV 89701. **Please note that U.S. EPA will be discussing the Carson River Mercury Site, at the Forum on Wednesday, February 22, 2017 from 9:00am – 11:00am.**

I am attaching a draft itinerary for the bus tour as well as a draft program agenda for the Carson River Watershed Management Forum for your review as well as a write-up on the Carson River Mercury Site (CRMS) prepared by my colleague, Andy Bain, to give you an overview and status of EPA actions to date and brainstorming about possible remedial alternatives to consider for the next phase of work.

Please let me know if anyone from your office is interested in participating in the bus tour and/or Carson River Watershed Management Forum. If you have any questions or need any additional information, please give me a call at 415.947.4256.

Regards,

Brent Maier

2017 Carson River Watershed Management Forum

& EPA-NDEP Carson River Mercury
Superfund Site Bus Tour

**Location: Carson City Community Center Theater
851 East William Street Carson City, NV 89701**

Tuesday, February 21 - Carson River Mercury Superfund Site bus tour
8:30 am to 4:30 pm - Carson City to Fallon - Register today seating is limited

Wednesday, February 22 Day 1: Carson River Watershed Management Forum
9:00 am to 4:30 pm - Mercury Superfund Workshop 9 am to 11am.

Thursday, February 23 Day 2: Carson River Watershed Management Forum
9:00 am to 4:30 pm

The Carson River Watershed is truly “A Lifeline Connecting Our Communities”. The “**Carson River Watershed Management Forum**” is your opportunity to learn about the extraordinary efforts being implemented by multiple organisations to manage, conserve, and protect our watershed, its floodplains, and many natural resources.

Topics include: riparian restoration, water quality and quantity, stormwater, flooding and floodplain management, invasive species., agriculture, recreation, and education/outreach programs.

**Bus Tour and Forum are FREE.

Job Openings:

Environment Nevada Director

Environment Nevada is hiring a State Director responsible for running our state-based work. Through Environment Nevada, thousands of citizen members are teaming up with a professional staff to protect the places we love and the environmental values we share. We are part of a national federation of environmental groups with offices in 29 states and Washington, D.C.

RESIDENTIAL OUTDOOR SCIENCE INSTRUCTOR (ROSI)

Sierra Nevada Journeys This is a seasonal position with multiple facets (or multiple roles and responsibilities). During the fall and spring seasons, instructors deliver residential, 1-5 day Outdoor Science educational programs primarily serving fifth and sixth grades from regional elementary schools. All of our lessons are hands-on science and collaborative problem solving based with a focus on critical thinking, science, and environmental stewardship.
